

Bicycle Chain Dog Sculptures by Nirit Levav Packer

These bicycle chain dog sculptures by Nirit Levav Packer are sooooooooo good!!!

Nirit used to make wedding dresses but she got bored and after she picked up a load of ‘junk’ from a bike shop she came up with idea of making dogs out of chains, she appears to have made absolutely loads of these little pooches, it must be hella tough working with chains though they definitely do offer a vast amount of opportunities for art due to their pliable nature.

Check out a whole load more doggies over on [her website](#). The video on there wouldn't play for me so I've embedded it below for you, what a nice guy I am.

Thanks to [Bicaj,debrecen](#) for the tip.
